The Making of Books

HE Printing and Binding of Books is a business requiring special knowledge, skill, aptitude and taste. Printing is not merely the mechanical operation of putting words into type and impressing them upon paper. It is much more than that. In the making of Books or Catalogues every detail of the work must be planned. The purpose of the book and the class of readers to be reached is the first consideration; and the most suitable size, the type to be used, the character of the illustrations, the quality, color and texture of the paper, the material and shade of the binding, the cover design, and even the wrapper itself, must all be in harmony with it.

The reader of a book or the buyer of goods from a catalogue does not stop to analyse what it is about a book that impresses him—the general effect alone counts. But as books are, primarily, made to read and not merely to look at, the first place belongs to the author; and stock, design, workmanship, illustrations and binding, must be subordinate to his work and in harmony with it.

The Printing and Binding of Books is our business. Books, Catalogues, Booklets, etc., of every description are made in our own splendidly equipped plant, and by a thoroughly experienced staff of trained workmen.

The Kalamazoo Loose Leaf Binder

THE KALAMAZOO LOOSE LEAF SYSTEMS are modern in every way. They are the last word in Accountancy, whether for hand posting or machine ledger work. : : : : :

The advance in Bookkeeping methods has been quite as marked as in other branches of business, and the systems of yesterday must give place to those of to-day. : : :

It is not sufficient to have your Manufacturing Departments fitted with the most modern equipment and your Sales force keyed up to the highest degree, if your Office staff is not doing its work in the most efficient manner. : : :

There is a "Kalamazoo" device for every office need, and we should like the opportunity of showing them to you.

Put your problems up to us and let us help you.

EQUITY LIFE ASSURANCE CO. OF CANADA

during its first fifteen years of business received in premiums $741,083 for policies which, at the usual with-profits rates, would have cost its policyholders $947,083. This was an immediate saving in cost of $206,000, or 21.7 per cent. of the usual cost of insurance. Consider this fact and act according to your own judgment. Answer to all questions whether by mail or otherwise receive prompt and careful attention.

***MAIL ADVERTISING**

THE DIRECT APPEAL IS MOST PRODUCTIVE OF RESULTS. That is why Advertising-by-Mail is being used more exclusively now than ever.

The Circulation is no guess—You know from the outset the field you will cover and you cover it. Your circulation list is open and accessible, and you know that every name on it represents a valuable reader.

Our experience permits us to advise you both as to the list to use and how to go about it to the best advantage.

Every phase of the work is handled by Might's from the writing of the copy to the mailing of it.
